## eTrac password problems? No sweat, you just need to reset

Once you've signed up to the eTrac portal, you need to create a password to log in. If you've forgotten don't worry, it's easy and it only takes a moment.

Here's how:

- Scan the QR code to visit the Password Reset page.
- Enter your username.
- Click 'reset password'.
- You'll then get an email from the eTrac Greyhound Industry Racing Portal, so keep an eye on your inboxes.
- Follow the instructions in the email received to finalise your new password.

If you have any questions, contact us on 13 49 42 (13 GWIC).

## From the Stewards' Box

A reminder that use of worming products containing Levamisole in racing greyhounds should be avoided, as it may cause the greyhound to return a positive swab. Access GWIC's helpful factsheets at [www.gwic.nsw.gov.au/factsheets](http://www.gwic.nsw.gov.au/factsheets) or speak to your vet.

## Code of Practice

### Part 6: Transporting Greyhounds

On the road again?  
When being transported by road, greyhounds must, unless it is unsafe to do so, be removed from transport compartments/cages at least every three hours and offered an opportunity to drink, exercise and toilet.

## New fee structure

For the first time in four years, GWIC has changed some of its registration and transaction fees. These changes came into effect on 1 July 2023.

Fee-free options and significant discounts for three-year registration continue to be available.
