REPORT:

Following receipt of a certificate of analysis from the Racing Analytical Services Laboratory, the Commission conducted an investigation into the results of a post-race urine sample taken from the greyhound, 'Shady Max' ("**Greyhound**") at the Maitland meeting on 7 February 2019.

Further analysis of the sample was conducted by the Racing Chemistry Laboratory, confirming the presence of arsenic at a mass concentration of greater than 1,600 nanograms per millilitre.

After considering the evidence, the Commission charged Mr Jenner with a breach of Rule 83(2)(a) of the Commission's Greyhound Racing Rules ("**Rules**") given that the post-race urine sample taken from the Greyhound confirmed the presence of the prohibited substance arsenic above the threshold imposed by Rule 83(11) of 800 nanograms per millilitre.

Mr Jenner admitted the charge at the earliest opportunity.

The disciplinary action was conducted in writing in accordance with the participant's election.
